Kable Kontrol® Plastic Coated Stainless Steel Cable Ties provide

added tensile strength and durability when compared to regular nylon cable ties. Black Coated metal cable ties can be used in almost any environment; outdoor, indoor, and even underground. These coated steel cable ties have endless applications for almost every industry. All of our Plastic Coated Stainless Steel Cable Ties feature rounded edges and a smooth surface making them easy on the hands. In addition to this, they have a self-locking head. Made of high-quality steel, these cable ties have a high resistance to a variety of externalities including insects, fungi, animals, molds, mildew, rot, UV Light, and various chemicals.
