

# Stainless-Steel Cable Ties

**Kable Kontrol® Stainless Steel Zip Ties** are ideal for bundling wires or hoses in demanding applications where corrosion, vibration, general weathering, radiation, and temperature extremes are of concern. These cable ties are commonly used in industries such as mining, pulping, and chemical plants. These metal cable ties are designed with an easy-to-install, low-profile, self-locking ball bearing head. Stainless Steel Cable Ties can be installed indoors, outdoors, or underground if necessary.

- **Material: Type 304 Steel**
- **UL Standard UL62275**
- **UL Listed, File No. E530766 Positioning Device 33AS, TYPE: 2**
- **Plenum Rating AH-1**
- **Self Locking Head**
- **Flame Retardant & Non-Toxic**
- **Temperature Range -112° F to +572° F**
- **Max Failure Temperature 1000° F**
